CAREER OBJECTIVE

Aspiring Web Developer skilled in building full-stack applications using JavaScript, TypeScript, NestJS, HTML/CSS, and SQL. Seeking an opportunity to apply technical skills, learn modern frameworks, and contribute to building scalable and user-friendly web solutions.

EDUCATION QUALIFICATION

Qualification	College/School	Year of Completion	CGPA/Percentage
BE (Computer)	Don Bosco College of Engineering	2026*	8.216
HSSC	S. S. Samiti's Higher Secondary School of Science	2022	83.5%
SSC	A.J. De Almeida High School	2020	92.16%

CORE COMPETENCIES

- Full-Stack Web Development
- API Development (REST & GraphQL)
- Database Design & Optimization
- Authentication & Role-Based Access
- Real-Time Communication (WebSockets)
- Problem Solving & Debugging

TOOLS

Languages: C, C++, Python

Tools: VS Code, Git/GitHub

Web Development: HTML, CSS, JavaScript, TypeScript, NestJS, PHP

Concepts: REST APIs, GraphQL, Authentication, WebSockets

Databases: MySQL, PostgreSQL

EXPERIENCE

Backend Intern – Remote Software Solutions Pvt. Ltd.

(Duration: 2 months, [July 2025 – August 2025])

- Developed Backend modules using NestJS with GraphQL APIs.
- Implemented role-based authentication using JWT and guards.
- Integrated PostgreSQL with entities, schemas and relations.
- Built WebSocket-based real-time updates.
- Followed clean architecture and scalable service design patterns.

RELEVANT PROJECTS

1) Live Polling System | NestJS, GraphQL, WebSockets, PostgreSQL

- Built a real-time polling platform with WebSockets for instant updates without refresh.
- Designed GraphQL schemas for polls, users, and options; integrated PostgreSQL for storage.
- Implemented JWT-based role authentication (Admin/User) using NestJS Guards.
- Developed responsive UI using HTML, CSS, and JavaScript.

2) Conference Room Booking System | HTML, CSS, JavaScript, PHP, MySQL

- Designed and normalized databased schemas; implemented triggers for password encryption.
- Developed frontend and backend modules enabling dynamic room booking and conflict prevention.
- Integrated database with the website to ensure secure and efficient booking flow.
- Worked as a part of a 3-member team and handled complete Database + backend integration.

3) GuessIt – Number & Word guessing game | NestJS, HTML, CSS, JavaScript

- Developed a dual-mode game featuring number and word guessing using a custom-built Riddle API.
- Designed and implemented REST APIs in NestJS to fetch riddles dynamically and deliver game clues.
- Built an interactive, responsive UI using HTML, CSS, and JavaScript for smooth user gameplay.
- Added scoring logic, validation and game state handling for an engaging user experience.
- Followed modular backend architecture integrating controllers, services, and database logic.

4) To-Do List | HTML, CSS, JavaScript

- Built an interactive UI with add, delete, complete and reset features using DOM manipulation.
- Enabled task persistence using LocalStorage.
- Added smooth transitions, responsive design, and keyboard shortcuts.

EXTRA-CURRICULAR & CO-CURRICULAR ACTIVITIES

- **2nd Place**, UI/UX Design Competition – Don Bosco College of Engineering (April 2025)
- **1st Place**, Pitch It Competition – Don Bosco College of Engineering (August 2024)
- **2nd Place**, Pitch It Competition – E-cell, Don Bosco College of Engineering (November 2023)
- Competed in multiple coding competitions at:
 - Goa Engineering College (March 2025)
 - Padre Conceição College of Engineering (October 2024)
 - Shree Rayeshwar Institute of Engineering & IT (March 2024)

CERTIFICATIONS

Web Development & Programming

- UI/UX for Beginners – *Simplilearn* (July 2025)
- Web Development Training – *Internshala Trainings* (May – June 2023)

Data Analytics

- Data Analysis Using Python – *IBM SkillsBuild* (September 2025)
- Career Essentials in Data Analysis – *Microsoft & LinkedIn* (August 2025)

AI & Cloud Computing

- AI-ML Virtual Internship – *AICTE Eduskills* (July – September 2024)
- Cloud Computing Training – *Academor Trainings* (January – February 2023)
